

Please sirs DO NOT let NAB petition 04-160 be passed. My wife and I travel a good deal in our respective jobs and the XM radios help us a lot. We depend on them for virtually everything in our travels. Please do not take away our rights as American citizens to pay for these amentities. We cannot count on local radio stations to give us timely traffic and weather updates as well as quality entertainment. We PAY for these services of our own FREE WILL. I believe that is what America was founded on, am I not correct? To let a large association dictate to Americans what they can hear is taking away our rights as free people. Please I implore you to not let the National Association of Broadcasters do this injustice to the American people. Where will it end if you let this happen? Someday they might take away something YOU like and are paying for just because it's better than what they offer. Thank You for your time. Respectfully, Roger Shuck, Jasper TN.
